Restorative Practices in the Classroom

On Demand Course

Presenter: Jillian Meinhardt, LCSW, LICSW, LCSW-C

COURSE OVERVIEW

This one-hour course will address the effectiveness and application of restorative practices in the classroom. Participants will be able to identify the benefits of restorative practices, the intersection between restorative practices and neurodivergent learners and tangible restorative practice strategies for implementation. Key skills discussed include proactive and restorative circles, conflict resolution skills, reentry meetings and expectation setting. Participants will leave confident in their ability to implement restorative practices, benefiting both their students and the broader school community. This course will use powerpoint, lecture and case examples to teach the content.

LEARNER OBJECTIVES

1. Define restorative practices
2. Identify three benefits of implementing restorative practices in the classroom
3. Identify the intersection between restorative thinking and neurodivergent learners
4. Identify and implement proactive and restorative circles, conflict resolution skills, reentry meetings and expectation setting in the classroom
5. Identify two ways to create restorative culture in your school

INTENDED AUDIENCE

This Introductory level course is intended for anyone working with a students in a school setting (educators, administrators, mental health providers, support staff, parents, camp counselors, camp administrators, religious school educators, etc.). No prerequisites required.
